

## ESPI - GROUPAMA JOINT PROJECT

A hundred Master's students of the French school of real estate ESPI visited the 13,000 m<sup>2</sup> public building Diamant in Puteaux.

In small groups, these students specialising in Valuation & Auditing, Finance Engineering, and Real Estate Administration & Management discussed various strategies for creating value with the building. They will present their work to a jury made up of ESPI teachers and professionals from Groupama Immobilier and Groupama Supports & Services.

Good luck to all!
